Colin Leong Hong Seng

018-909-8008 | colinleonghongseng@gmail.com | LinkedIn | GitHub | Personal Website | Internship (Jan-Apr 2027)

EDUCATION

Sunway University | Petaling Jaya, Selangor **Sept. 2024 - Present (Expected: Aug. 2027)**

Bachelor of Science (Honours) in Computer Science | Current CGPA: 3.98/4.0

Sunway College | Petaling Jaya, Selangor **Aug. 2023 - Aug. 2024**

Foundation in Science and Technology | CGPA: 4.0/4.0

Catholic High School | Petaling Jaya, Selangor **Jan. 2018 - Mar. 2023**

Sijil Pelajaran Malaysia (SPM) | SPM: 9A

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Bootstrap, CSS, HTML

Backend & Database: Python, FastAPI, Django, Go, Flask, SQLAlchemy, Neon, Supabase, Redis

Machine Learning: Scikit-learn, Pandas, Jupyter

Web Scraping & Automation: Selenium, Playwright, Beautiful Soup

Others: Git, GitHub, AWS, Java, Docker, Linux, Scala, Haskell, C

RELEVANT EXPERIENCE

Teel | Bangsar, Kuala Lumpur **Aug. 2026 - Present**

Software Engineering Intern

- Prevented quote-engine crashes by **adding panic recovery** to 6 concurrent provider fan-outs, preventing malformed third-party responses from crashing the process and disrupting in-flight payout requests
- Performed **QA** across sandbox payment and invoicing workflows, uncovering **40+ defects**, including balance inconsistencies, payout failures, validation gaps, stale UI state, and provider pricing issues
- Simplified the payout quote path by **removing a redundant cross-service intelligence loop**, reducing network latency, storage overhead, and external failure points in the money-movement flow

Upwork | Remote (Upwork Profile Link) **Jan. 2024 - Oct. 2025**

Freelance Web Scraper

- Built custom scraping scripts using **Python** (**Selenium, Playwright, Beautiful Soup**) to extract data from websites
- Delivered clean, well-formatted datasets to clients using **pandas**

PROJECTS

ML Model API GitHub Link

- A FastAPI service serving a **scikit-learn** spam classifier (**TF-IDF** + **MLPClassifier**, tuned via **RandomizedSearchCV**) on the UCI SMS Spam Dataset
- Implemented API key auth (**Argon2id**) and **SQLAlchemy** for secure, tracked model inference requests

Spam Classifier GitHub Link

- Trained a spam classification model in **scikit-learn** using **RandomizedSearchCV** to tune hyperparameters across **CountVectorizer** and **TF-IDF** pipelines with multiple classifiers
- Identified **MLPClassifier** as the top performer with both vectorizers, achieving ~**97.5% accuracy** on the Kaggle Spam Email Dataset

eBay Scraper GitHub Link

- A **Flask REST API** with 4 interchangeable scraping backends in **Python** (**Selenium, Playwright, Beautiful Soup**) to extract and clean eBay product data
- Built a **Bootstrap** UI to demo the API and display scraping results

CERTIFICATIONS

CS50x: Introduction to Computer Science | Harvard University **June 2025**

CS50AI: Introduction to Artificial Intelligence with Python | Harvard University **Jan. 2026**
AWS Artificial Intelligence Practitioner Learning Plan | AWS **June 2026**
Mastering Docker: Containers, Networking, and Orchestration | CodeSignal **June 2026**
CCNA: Introduction to Networks | Cisco **May 2025**
Linux Unhatched | Cisco & NDG **July 2025**

LEADERSHIP EXPERIENCE

Sunway Tech Club **May 2026 - Present**
Committee - Education Department
AWS Student Builder Group - Sunway University **Jan. 2026 - Present**
Executive of Event Management
Sunway AI Builders Club **Oct. 2026 - Present**
Tech Executive

HACKATHONS & CTFS

CAPTCHA The Flag | Champion **Oct. 2026**
ImagineHack 2026 | First Runner Up **June 2026**
DORMATHON 2026 | Second Runner Up **Oct. 2026**
Chutes Hack Malaysia 2026 | Second Runner Up **June 2026**
UM Hackathon 2026 | 17th of 136 teams **Apr. 2026**
Agentic AI-Driven CTF Hackathon 2026 | 16th of 57 teams **Aug. 2026**
Qwen Brainrot Hackathon 2026 | Finalist **July 2026**
Kaspersky{CTF} 2026 | 50th of 635 teams (Top 4 in Malaysia) **Aug. 2026**
SunCTF 2026 | 24th of 82 teams **Aug. 2026**
